

Oral Health Screening Registration Form

Event Name:	Dental Exam, X-rays, Digital Scan, Photos
Event Date(s):	TBD
Event Location:	TBD

Personal Information (Required)

Full Name	
Email Address / Phone Number	
Patient Age	
Address	Street: _____ City: _____ State: _____ Zip/Postal Code: _____

Additional Information (Required)

Do you consent to digital xrays?*	<input type="checkbox"/> Yes <input type="checkbox"/> No (Please specify): _____
Do you consent to intraoral and full face photos?*	<input type="checkbox"/> Yes <input type="checkbox"/> No
Do you consent to 3D intraoral digital scans?*	<input type="checkbox"/> Yes <input type="checkbox"/> No

**All information gathered during screening process will be used for diagnosing and treatment planning only*

Please complete this form and return it to **Revive Team or Location Administrative Office**. A link will be sent to the email address or mobile number provided. Please complete the medical, dental, and insurance information questionnaire at the link. A link will then be sent for the registration fee (\$25 for kids, \$55 for adults 18+, or free if insured by Medicaid). Once payment is received (or Medicaid coverage verified), a screening schedule will be emailed or texted.

Preparing for your Oral Health Screening...

So that we are able to get the most accurate 3D and intraoral photos, please brush your teeth prior to your appointment. If on the day of your screening you have a cold sore on your lip, multiple sores/ulcers in your mouth, an upper respiratory infection, or are not feeling well in general, please tell your administrator so that we may reschedule your screening.

What to expect during the Screening....

1. A full set of **digital xrays** will be taken. Xrays help the dentist diagnose gum disease, cavities, and infections. The amount of digital xrays depends on age and number of teeth present.

2. A **3D digital intraoral scan** will be completed. This scan will duplicate the structures of the mouth, as well as how the teeth come together. This aids the dentist in diagnosing, planning restorations, and determining the need for orthodontic or airway intervention. A 3D scan also replaces traditional impressions for dentures, sports guards, clear aligners, and other restorations.

3. A set of **photos** will be taken for chart identification purposes and as a reference to what the teeth looked like prior to intervention.

4. Kids without significant gum disease and/or tarter build-up may receive a **cleaning** and flossed.

What happens after the screening?....

Dr. Jacqueline Patterson will evaluate the screening materials in order to diagnose and give recommendations for treatment. A treatment plan will be emailed and you will be contacted by Revive to go over the treatment plan, answer all of your dental and financial questions, and to schedule you for treatment and/or a cleaning if needed.

Revive Mobile Workflow

Before the Screening...

A Revive Mobile Screening Coordinator will gather patient registration forms from facility/organization. Create patient profiles in dental software and send out links to complete medical history, chief concerns, insurance info, and payment.

After the Screening...

1. **Treatment Plan** A personalized, detailed treatment plan is created by Dr. Patterson. It will contain all preventative, restorative, reparative, surgical, cosmetic, orthodontic, protective, and airway/sleep treatments to improve the patient's oral health.

2. **Phone Call or Zoom** A Revive Mobile Patient Care Coordinator will schedule either a phone or video call with the patient and/or guardian/decision-maker to discuss the treatment plan.

PAYMENT PLANS

3. **Financial Options** Revive Mobile makes dental treatments more affordable by offering an in-house insurance plan, payment plans, and third party lender options as an addition to insurance filing and/reimbursement.

4. **Schedule** Once treatment is accepted, the patient will be scheduled with Dr. Jacqueline Patterson - who has been practicing dentistry for more than 18 years. Dr. Patterson is gentle, understanding, and knowledgeable about all aspects of dentistry.

What to Expect on Treatment Day.....

Dr. Patterson and the Revive Mobile Health Solutions team will make you and/or your loved one feel at ease before, during, and after the procedure. Using state-of-the-art equipment and technology, procedures are fast and comfortable, with both beautiful and functional results!
